

[Docket No. FE C&E 94-14—Certification Notice—142]**Houston Lighting & Power Company; Notice of Filing of Coal Capability; Powerplant and Industrial Fuel Use Act**

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of filing.

SUMMARY: On December 5, 1994, Houston Lighting & Power Company submitted a coal capability self-certification pursuant to section 201 of the Powerplant and Industrial Fuel Use Act of 1978, as amended.

ADDRESSES: Copies of self-certification filings are available for public inspection, upon request, in the Office of Fuels Programs, Fossil Energy, Room 3F-056, FE-52, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585.

FOR FURTHER INFORMATION CONTACT: Ellen Russell at (202) 586-9624.

SUPPLEMENTARY INFORMATION: Title II of the Powerplant and Industrial Fuel Use Act of 1978 (FUA), as amended (42 U.S.C. 8301 *et seq.*), provides that no new baseload electric powerplant may be constructed or operated without the capability to use coal or another alternate fuel as a primary energy source. In order to meet the requirement of coal capability, the owner or operator of such facilities proposing to use natural gas or petroleum as its primary energy source shall certify, pursuant to FUA section 201(d), to the Secretary of Energy prior to construction, or prior to operation as a base load powerplant, that such powerplant has the capability to use coal or another alternate fuel. Such certification establishes compliance with section 201(a) as of the date filed with the Department Of Energy. The Secretary is required to publish a notice in the **Federal Register** that a certification has been filed. The following owner/operator of a proposed new baseload powerplant has filed a self-certification in accordance with section 201(d).

Owner: Houston Lighting & Power Company (HL&P) Houston, TX.

Operator: Houston Lighting & Power Company Houston, TX.

Location: La Porte, Harris County, TX.
Plant configuration: Combined cycle Cogeneration.

Capacity: 162 megawatts.

Fuel: Natural gas.

Purchasing entities: Customers of Houston Lighting & Power Company.

In-service Dates: First Quarter, 1995.

Issued in Washington, D.C., December 21, 1994.

Anthony J. Como,

Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.

[Docket No. FE C&E 94-16—Certification Notice—144]**Longview Fibre Company; Notice of Filing of Coal Capability Powerplant and Industrial Fuel Use Act**

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of filing.

SUMMARY: On December 16, 1994, Longview Fibre Company submitted a coal capability self-certification pursuant to section 201 of the Powerplant and Industrial Fuel Use Act of 1978, as amended.

ADDRESSES: Copies of self-certification filings are available for public inspection, upon request, in the Office of Fuels Programs, Fossil Energy, Room 3F-056, FE-52, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Ellen Russell at (202) 586-9624.

SUPPLEMENTARY INFORMATION: Title II of the Powerplant and Industrial Fuel Use Act of 1978 (FUA), as amended (42 U.S.C. 8301 *et seq.*), provides that no new baseload electric powerplant may be constructed or operated without the capability to use coal or another alternate fuel as a primary energy source. In order to meet the requirement of coal capability, the owner or operator of such facilities proposing to use natural gas or petroleum as its primary energy source shall certify, pursuant to FUA section 201(d), to the Secretary of Energy prior to construction, or prior to operation as a base load powerplant, that such powerplant has the capability to use coal or another alternate fuel. Such certification establishes compliance with section 201(a) as of the date filed with the Department of Energy. The Secretary is required to publish a notice in the **Federal Register** that a certification has been filed. The following owner/operator of a proposed new baseload powerplant has filed a self-certification in accordance with section 201(d).

Owner: Longview Fibre Company
Longview, Washington.

Operator: Longview Fibre Company
Longview, Washington.

Location: Longview, Washington.

Plant Configuration: Combined cycle Cogeneration.

Capacity: 68 megawatts.

Fuel: Natural gas.

Purchasing Entities: No present contracts (expects to sell 50% output in the future).

In-Service Date: May, 1995.

Issued in Washington, DC, December 28, 1994.

Anthony J. Como,

Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5129-6]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before February 2, 1995.

FOR FURTHER INFORMATION CONTACT:

For further information, or a copy of this ICR, contact Sandy Farmer at (202) 260-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: AgSTAR Program (EPA ICR 1735.01). This ICR requests approval of a new collection.

Abstract: AgSTAR is an EPA-sponsored, voluntary program that encourages livestock producers to implement methane recovery technologies to increase livestock production profit margins and reduce emissions from manure methane, a greenhouse gas. AgSTAR further encourages utilities, regulatory agencies and universities to support and promote

the use of methane recovery technologies. The AgSTAR program consists of two types of participants: "Partners" and "Allies". Partners, who are primarily livestock producers, complete a Memorandum of Understanding, develop an implementation plan and report to EPA annually on progress towards meeting the goals identified in the implementation plan. Allies, primarily utilities and marketers of methane recovery technologies or related associations, complete a Memorandum of Understanding and obtain EPA approval to use EPA-developed materials or reproduction of materials bearing the AgSTAR logo.

Burden Statement: Public reporting burden for this collection of information is estimated to average 5 hours per partner response and 9 hours per ally, including time for reviewing instructions, searching existing data sources, gathering the data needed, and completing the collection of information.

Respondents: livestock producers, utilities and universities.

Estimated Number of Respondents: 625.

Estimated Total Annual Burden on Respondents: 3500 hours.

Frequency of Collection: as needed.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, to: Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, SW., Washington, DC 20460 and Chris Wolz, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW., Washington, DC 20503.

Dated: December 19, 1994.

Paul Lapsley,

Director, Regulatory Management Division.

Title: Natural Gas STAR Program (EPA ICR 1736.01). This ICR requests approval of a new collection.

Abstract: Natural Gas STAR is an EPA-sponsored, voluntary program that encourages cost effective methods for reducing methane emissions from natural gas production, storage, transmission and distribution facilities. Participants develop a Memorandum of Understanding, develop an implementation plan, and report to EPA annually on progress towards meeting the goals identified in the implementation plan.

Burden Statement: Public reporting burden for this collection of information is estimated to average 45 hours per response, including time for reviewing instructions, searching existing data sources, gathering the data needed, and completing the collection of information.

Respondents: natural gas production, storage, transmission and distribution companies.

Estimated Number of Respondents: 70.

Estimated Total Annual Burden on Respondents: 3100 hours.

Frequency of Collection: as needed.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, to:
